

FLYRE
LAB

A vertical streak of light, transitioning from red at the top to yellow and white at the bottom, is set against a dark, textured background. The light streak has a soft, ethereal glow. Two thin, horizontal white lines are positioned above and below the text, centered horizontally.

WHERE IDEAS
BECOME
RESULTS

FIRE: a powerful yet primordial element.

It awakens respect, but once you deal with it, it reveals its natural side. Its impact on human evolution's been crucial.

TYRE: the product on which our market is based on, is the wheel's successor: in its simple technology it might results predictable, but it took years before man could invent it and accelerate the common progress.

FYRE LAB: a laboratory where ideas are forceful, such as the fire, yet simple, such as the wheel.

So far, FYRE LAB results are surprising. A series of top-range products that hide their complexity behind people-friendly technologies and easier work processes.

The advantages you could get from it are hard to imagine: give it a try!

IDEAS

01

SPEED

To speed the tire mounting and demounting processes up

02

ERGONOMIC DESIGN

It allows working in an ergonomic position always. No stress on your back

03

EASY TO USE

Control console with an intuitive layout that leads you during the tire changing procedures

IDEAS

04

STRATEGY

To increase your customers portfolio

05

ADAPTABLE TO ANY WORKSHOP

To create the perfect solution for any workshop

06

ALWAYS CONNECTED

Several value visualization modes. Direct data handling
